Each of the districts has its own supporting organization. **Alton Main Street** serves downtown, the **North Alton Godfrey Business Council** serves North Alton, and the **Upper Alton Association** serves Upper Alton.

The **Riverbend Growth Association** is the Chamber of Commerce for 12 communities in the Riverbend region.

Contact these groups for networking and promotional opportunities. Links to each organization’s website can be found on page 6.
Step 3: Choose a Business Location

- The City of Alton uses the North American Industrial Classification System (NAICS) as the basis for its zoning laws. Some uses are permitted by right in the district and some require approval from the City Council. Some businesses also require certain amounts of water or electricity for operation.

- The building selected for the business must be inspected by the City’s Building and Zoning Department. In addition to other criteria, please be aware of the following information that will be examined during the inspection:
  1. Have one 2A-10BC fire extinguisher within 75-foot travel distance on each level of the business, wall mounted with the top between 42 inches and 54 inches from the floor. All extinguishers must be serviced once per year.
  2. All private protection systems need to be inspected by licensed personnel and serviced if needed.
  3. All unnecessary combustibles must be removed from the premises.
  4. All buildings that have an apartment or sleeping arrangements must have smoke detectors.
  5. Electrical circuits must be identified and marked on the electrical panel (individual circuits).
  6. Adequate exits must be established and kept in working order as well as avenues to the exits.

- If a business is located in the Appearance Review District, please contact the Building and Zoning Department regarding signage or changes to the building’s exterior. The City offers façade grants to qualifying applications through the Building and Zoning Department.

- Businesses located in a residence must meet the requirements of a “Home Occupation”. The business must clearly be a secondary use and it must be operated by a person living in the house with no non-family employees.

- Electrical, plumbing, and building inspections are handled by the Building and Zoning Department.

- For food establishments, a permit will be required through the Madison County Health Department.
